

## What Our Customers Are Saying About Us

1.

The family gave a helicopter experience to my Dad, Bill Sangster, for an 80th Birthday present. Jason juggled his morning around a couple of days ago to fit us in in what he termed as one of the half dozen days of the year that the Tararua's really turn it on. It was mind blowing spectacular and Steve, Dad and I loved every minute of it. Loved the flight, the stunning scenery, Jason's limitless local knowledge and the lengths he went to to make this a trip of a lifetime for Dad (us too!). So appreciated, Jason and Sally, you guys were great and we'll be back!!! Di & Steve Norman

2.

I've been flying into the Tararua's with these guys for twenty years. They are consummate professionals, Keep up the great work guys.- Vic Jacobson NZ

3.

As a surprise package for a family on their Mum's 50th what a buzz. Two of whom are afraid of heights which were kept at bay.

Thanks so much for coming and picking them up and dropping them back at Tinui Station. They had a blast.

Also for taking into consideration the deteriorating weather and offering a different but just as exciting scenic tour around the Wairarapa.- Janet Blair Australia

4.

Hello Jason

I know that John Ashby has passed on my thanks for yesterday's operation at Totara Flats, but I just wanted to contact you personally to say how grateful I am for the skill and professionalism you and your team demonstrated in extracting me from a difficult and dangerous spot. You were quick, calm and efficient, and made me feel that I was in very good hands. I am also grateful that your guys took me out to Holdsworth and then to the hospital complete with my vehicle.

Thanks again.

Best wishes

David
